# Decal Identification

Loc:Transmitter Front

**TRANSMITTER OPERATION**

For transmitter to control machine:  
Manual/Remote switch must be in forward (Remote) position. This switch is located on machine console.

**START:** Depress on/Start button. Must press twice. Initial push energizes engine fuel solenoid. Second push cranks starter.

**STOP:** Depress Off/E-Stop button. De-energizes fuel solenoid.

**MACHINE MOTION:** Left & Right hand drum rocker switches will control Forward & Reverse movement. Must be held down when operating. Movement ceases when switches are released.

**VIBRATION ON:** Depressing vibe on switch starts compaction and controls direction of eccentric weight.

**VIBRATION OFF/TRAVEL SPEED:** Depressing Vibe Off/Speed switch will immediately turn vibration off & put machine into either low or high travel speed.
